<https://github.com/Elena4Max>

OBJECTIVE

2 years of practical experience in software developing. Skills:

- Knowledge of the POPULUS (software for automotive);
- Experience of the testing software for automotive projects (experience with GNU/Linux);
- Basic knowledge of the SQL, UML; Knowledge of the bug tracking system "Jira";
- Understanding process how to work of power modes, corresponding software/custom/online updates with HMI;
- Knowledge of products "1C: Enterprise" and BAS; SQL;
- Knowledge of C and C++(C++11)
- Multi-threaded programming experience

EXPERIENCE

System Programmer | Soft-Pro Group

09/2020 – NOW

- Implementation of products "1C: Enterprise" and BAS
- Consulting clients
- Information databases support
- Software products development (programming)

Technologies: 1C, standard accounting, SQL, SMTP, "Jira";

Software developer | Luxoft

09/2018 – 12/2019

- HMI (human machine interface - UI/UX part) development for large automotive project
- Implementation of features and architecture according to customer requirements
- Bugfix, refactoring, performance optimization
- Ticket processing regarding to project workflow, communication with backend team

- Providing development solutions in fixed estimated time

Technologies: POPULUS, UML, "Jira", Bash, XML, Git;

EDUCATION

Mathematical software for computer systems | ONPU

09/2020 – NOW

Master, 113 Applied Mathematics

Mathematical software for computer systems | ONPU

09/2016 – 06/2020

Bachelor, 113 Applied Mathematics

- 3rd award in international programming ACM Olympiad in uzhnu 2020(div 2)
- Publication in «Modern Information Technology 2020»
- 1st award Lookery Winter School 2019

SKILLS

- | | |
|------------------|------|
| • OOP, OOAD | ... |
| • C, C++ | |
| • Bash | .. |
| • XML | |
| • Cmake | ... |
| • Multithreading | .. |
| • Math | |
| • STL | .. |
| • Algorithms | .. |
| • Jira | ... |
| • Jenkins | ... |
| • Confluence | .. |
| • Git | |

LANGUAGES

- Ukrainian: Native
- Russian: Native
- English: B2

COURSES

- Summer Traineeship 2020, Data Art
- Domain modeling in UML (ER-model) REQ-006, Luxoft
